Marmiton Town Company.

I unequalled by any Town Company in the Territory.

The Company have just completed the largest Hotel in southern Kansas, being three stories high and containing twenty-four large, commodious sleeping and sitting rooms. In addition to the hotel, the Company have built a large Storchouse, which will soon be well filled with all the commodities needed in a country like ours. A large number of carpenters are now at work erecting residences, shops, offices, &c. The Company offer great inducements to mechanics and others, wishing to locate. The town, from its central location, being the geographical center of Bourben county, must always command an extensive trade and soon become an important town in southern Kansas, as it is surrounded by as GOOD FARMING LANDS as were ever tilled by the husbandman.

CLAIMS.—Good and desirable claims can be obtained in close proximity to town and timber.

Marmiton is splendidly and must be healthfully located, being on a high rolling prairie.

It has beautiful streams of water washing its northern and southern limits. An excellent

STEAM SAW AND GRIST MILL has lately been erected, and is now in successful

operation.

CLIMATE.—Marmiton is situated in latitude 37 ° 50, and longitude, 17 ° 47 west from Washington. The Thermometer does not indicate a higher degree of heat than ninety, and never in the winter gets below zero. Farmers and Mechanics find no inconvenience in deing out-door work in the winter season. Cattle, hogs, sheep, etc., do well on the prairie during the entire year. There is always a pleasant breeze in this hottest days of summer, which smakes the heat less oppressive than in many of the northern States. Lots will be sold at exceedingly low figures to persons desirous of building.
